

ABLPACK

Aluminum foil container
Aluminum foil roll paper

MADE *in* FAITH

Top End food chain brand preferred packaging

MADE *in* FAITH

Aluminum foil container matches with the national standard of food container, which is the mainstream selection direction in the world.

Our aluminum foil container is made under high temperature sterilizing decontamination technology to make the food package more safe and reliable.

Aluminum foil container can bear high temperature and won't change its shape, can be heated on fire, steamer directly. Keep warm effect of taking away is better, it can help fast reheating food, keep fresh taste of food, reduce the turnover process, shorten the production time of food, also can save energy, reduce the cost.

MADE *in* FAITH

Food grade

Pure aluminum foil material with epoxy resin lacquer, no harm, can touch food directly.

Oven able

High temperature resistant, torch can fire food directly, color won't fade.

Microwave able

It can be heated twice quickly.

Freeze able

Low temperate resistance, it can be frozen and refrigerated.

High Barrier

Aluminum foil has high barrier property, and it can keep fresh and extend the shelf life of food.

Material lightsome

Aluminum foil is light and has heat stability.

Easy to clean

Although deposable, colored aluminum foil container can be cleaned and reused.

Environmental protection

Aluminum foil is very malleable and easy to be deformed. It can be recycled to save resources.

HOT-SELLING SERIES

Aluminum Foil Toast Mold

High temperature resistance, No demoulding

Reduce the secondary rate, Increase the output rate

The first company of China
can promise our aluminum foil is **100%**
manufactured in accordance with international standards.

Aluminum foil is one of the materials which is widely used and promotes sustainable development.

By improving the efficiency of resource, the aluminum foil is better to promote the sustainable consumption and production.

Aluminum foil as functional diversity, practical, reliable and conducive to the sustainable development of high quality material, is create a better future for the whole society to provide more solutions

The features

- Suitable for cooked, baked and frozen
- High barrier property, keep longer fresh
- Avirulent insipidity, safety and healthy
- Environmental protection, renewable resources

Scope of application

- A substitute of baking tray and environmental health
- Food cooking, barbecue
- Do not freeze and frost by refrigerating
- Keep the food fresh
- Liquid will not spill out
- Lined in the bottom of a plate, is convenience to clean

ABLPACK offers you
Unique Bakery & Catering Experiences

Aluminum foil cup is completely disinfected by high temperature. So it is safe to contain the food and never breed bacteria.
