### **ABLPACK** Shanghai ABL baking Pack Co., Ltd.

### We ABLPACK promote new color series ~ Morandi

Morandi is lethargic and noble, not show off, relief and elegant, gentle and nature. It comes from a series of still life works by the Italian painter Giorgio Morandi. Colors of these works are mostly composed of light and calm gray tones, which have a mild and gentle feeling, so they are called "Morandi color". Morandi is the color such as advanced gray that we are familiar with actually. Now everybody calls this low saturation, look more halcyon, kind intermediate color as Morandi color! It can let a person feel the harmonious beauty of static state!

In 2019, the new product ABLPACK will be launched -- Morandi color series. We will meet with you from May 6th to 9th, May. Let us meet in N1 hall B08 and N3 hall A85 New International Expo Center, Pudong area, Shanghai~~
